### **Modbury received one consultation response:**

I would like to **request that the orders for the areas around St George's Churchyard and Car Park are maintained.** There have been incidents involving alcohol and drug use in the car park in recent years and the PSPO has been a useful tool in deterring misuse of the area and 'encouraging' people to move on.

### **Police Neighbourhood Team response:**

Having worked this area for the last ten years in the response function, 5 of those as a Sgt, and the last year as the NTL I have a decent overview of what is actually reported across the area.

**I see no demand for renewing this PSPO.** I can stated with 99% certainty that the PSPO powers have not had occasion to be used in my time here as NTL., probably the 5 years before that and am certainly not aware of any issues in the areas covered in the last 12 months.
