

Report to: **Audit Committee**

Date: **7 December 2021**

Title: **Treasury Management Mid-Year Review**

Portfolio Area: **Performance & Resources – Cllr C Edmonds**

Wards Affected: **All**

Urgent Decision: **N** Approval and clearance obtained: **Y**

Date next steps can be taken: **N/A**

Author: **Clare Scotton** Role: **Finance Business Partner**

Contact: **01803 861559** clare.scotton@swdevon.gov.uk

Recommendations:

It is recommended that the Audit Committee resolves:-

- i. To endorse the contents of the report.

1. Executive summary

1.1 To date, the Council has under-performed the industry benchmark by 0.05%. The Council has achieved a rate of return of 0.00% against the Sterling Overnight Interbank Average rate (SONIA) of 0.05%. The Council's budget for investment interest in 2021/22 is £105,321. The current forecast is £24,370 leaving a shortfall against budget of £80,951. A cost pressure for 2022/23 of £80,000 has been built into the Budget Setting process, so that the 22/23 investment interest budget is reduced to £25,321.

2. Background

2.1 The Council operates a balanced budget, which broadly means cash raised during the year will meet its cash expenditure. Part of the treasury management operations ensure this cash flow is adequately planned, with surplus monies being invested in low risk counterparties, providing adequate liquidity initially before considering maximising investment return.

2.2 The second main function of the treasury management service is the funding of the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning to ensure the Council can meet its capital spending operations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses.

2.3 Treasury management is defined as:

"The management of the local authority's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

2.4 The Council's Finance Procedure Rules require that a report be taken to the Audit Committee three times a year on Treasury Management. The specific reporting requirements are:

- An annual treasury strategy in advance of the year (Council 30/03/2021 – CM44)
- A mid-year (minimum) treasury update report (This report)
- An annual review following the end of the year describing the activity compared to the strategy

2.5 The CIPFA (Chartered Institute of Public Finance and Accountancy) Code of Practice for Treasury Management recommends that Members be updated on treasury management activities regularly (i.e. Treasury Management Strategy Statement (TMSS), annual and midyear reports). This report therefore ensures this Council is implementing best practice in accordance with the Code.

3. Economics and Interest Rates

Economics Update

3.1 The Monetary Policy Committee (MPC) voted unanimously to leave Bank Rate unchanged at 0.10% and made no changes to its programme of quantitative easing purchases due to finish by the end of this year at a total of £895bn; two MPC members voted to stop the last £35bn of purchases as they were concerned that this would add to inflationary pressures.

3.2 There was a major shift in the tone of the MPC's minutes at this meeting from the previous meeting in August which had majored on indicating that some tightening in monetary policy was now on the horizon, but also not wanting to stifle economic recovery by too early an increase in Bank Rate. In his press conference after the August MPC meeting, Governor Andrew Bailey said, "the challenge of avoiding a steep rise in unemployment has been replaced by that of ensuring a flow of labour into jobs" and that "the Committee will be monitoring closely the incoming evidence regarding developments in the labour market, and particularly unemployment, wider measures of slack, and underlying wage pressures." In other words, it was flagging up a potential danger that labour shortages could push up wage growth by more than it expects and that, as a result, CPI inflation would

stay above the 2% target for longer. It also discounted sharp increases in monthly inflation figures in the pipeline in late 2021 which were largely propelled by events a year ago e.g., the cut in VAT in August 2020 for the hospitality industry, and by temporary shortages which would eventually work their way out of the system: in other words, the MPC had been prepared to look through a temporary spike in inflation.

3.3 In August the country was just put on alert. However, this time the MPC's words indicated there had been a marked increase in concern that more recent increases in prices, particularly the increases in gas and electricity prices in October and due again next April, are, indeed, likely to lead to faster and higher inflation expectations and underlying wage growth, which would in turn increase the risk that price pressures would prove more persistent next year than previously expected. Indeed, to emphasise its concern about inflationary pressures, the MPC pointedly chose to reaffirm its commitment to the 2% inflation target in its statement; this suggested that it was now willing to look through the flagging economic recovery during the summer to prioritise bringing inflation down next year. This is a reversal of its priorities in August and a long way from words at earlier MPC meetings which indicated a willingness to look through inflation overshooting the target for limited periods to ensure that inflation was 'sustainably over 2%'. Indeed, whereas in August the MPC's focus was on getting through a winter of temporarily high energy prices and supply shortages, believing that inflation would return to just under the 2% target after reaching a high around 4% in late 2021, now its primary concern is that underlying price pressures in the economy are likely to get embedded over the next year and elevate future inflation to stay significantly above its 2% target and for longer.

3.4 Financial markets are now pricing in a first increase in Bank Rate from 0.10% to 0.25% in February 2022, but this looks ambitious as the MPC has stated that it wants to see what happens to the economy, and particularly to employment once furlough ends at the end of September. At the MPC's meeting in February it will only have available the employment figures for November: to get a clearer picture of employment trends, it would need to wait until the May meeting when it would have data up until February. At its May meeting, it will also have a clearer understanding of the likely peak of inflation.

Interest Rate Forecast

3.5 The Council's treasury advisor, Link Group, has provided the following forecast.

Link Group Interest Rate View		29.9.21									
	Dec-21	Mar-22	Jun-22	Sep-22	Dec-22	Mar-23	Jun-23	Sep-23	Dec-23	Mar-24	
BANK RATE	0.10	0.10	0.25	0.25	0.25	0.25	0.50	0.50	0.50	0.75	
3 month ave earnings	0.10	0.10	0.20	0.20	0.30	0.40	0.50	0.50	0.60	0.70	
6 month ave earnings	0.20	0.20	0.30	0.30	0.40	0.50	0.60	0.60	0.70	0.80	
12 month ave earnings	0.30	0.40	0.50	0.50	0.50	0.60	0.70	0.80	0.90	1.00	
5 yr PWLB	1.40	1.40	1.50	1.50	1.60	1.60	1.60	1.70	1.70	1.70	
10 yr PWLB	1.80	1.80	1.90	1.90	2.00	2.00	2.00	2.10	2.10	2.10	
25 yr PWLB	2.20	2.20	2.30	2.30	2.40	2.40	2.40	2.50	2.50	2.60	
50 yr PWLB	2.00	2.00	2.10	2.20	2.20	2.20	2.20	2.30	2.30	2.40	

3.6 The coronavirus outbreak has done huge economic damage to the UK and to economies around the world. After the Bank of England took emergency action in March 2020 to cut Bank Rate to 0.10%, it left Bank Rate unchanged at its subsequent meetings.

3.7 As shown in the forecast table above, one increase in Bank Rate from 0.10% to 0.25% has now been included in quarter 2 of 2022/23, a second increase to 0.50% in quarter 2 of 23/24 and a third one to 0.75% in quarter 4 of 23/24.

The balance of risks to the UK economy

3.8 The overall balance of risks to economic growth in the UK is now to the downside, including residual risks from Covid and its variants - both domestically and their potential effects worldwide.

4. Treasury Management Strategy Statement

4.1 The Treasury Management Strategy Statement (TMSS) for 2021/22, was approved by the Council on 30/03/21 – CM44. It sets out the Council's investment priorities as being:

- Security of capital;
- Liquidity; and
- Yield.

4.2 The Council will also aim to achieve the optimum return (yield) on its investments commensurate with proper levels of security and liquidity. In the current economic climate it is considered appropriate to keep investments short term to cover cash flow needs, but also to seek out value available in periods up to 12 months with highly credit rated financial institutions, using the Link suggested creditworthiness approach, including a minimum sovereign credit rating, and Credit Default Swap (CDS) overlay information.

4.3 There are no policy changes to the TMSS; the details in this report update the position in the light of the updated economic position and budgetary changes already approved.

5. Investment Portfolio 2021/22

5.1 In accordance with the Code, it is the Council's priority to ensure security of capital and liquidity, and to obtain an appropriate level of return which is consistent with the Council's risk appetite. As shown by the interest rate forecasts in section 3.5, it is now impossible to earn the level of interest rates commonly seen in previous decades as all short-term money market investment rates have only risen weakly since Bank Rate was cut to 0.10% in March 2020 until the MPC meeting on 24th September 2021 when 6 and 12 month rates rose in anticipation of Bank Rate going up in 2022. Given this environment and the fact that Bank Rate may only rise marginally, or not at all, before mid-2023, investment returns are expected to remain low.

5.2 The Council held £28.7m of investments as at 30 September 2021 (£18.971m at 31 March 2021) and the investment portfolio yield for the first six months of the year is 0.00% against a benchmark (SONIA rate) of 0.05%.

A full list of investments held as at 30 September 2021 is shown below:

Money Market Funds

Amount £	Investment	Average Interest rate
3,000,000	Aberdeen Standard Investments	0.01%
3,000,000	BlackRock ICS-Inst GBP	0.01%
1,050,000	Deutsche Managed GBP	0.00%
3,000,000	LGIM Sterling Liquidity Fund	0.00%
10,050,000	Total Money Market Funds	

The Council currently has four Money Market Funds. The money market funds allow immediate access to the Council's funds and spreads risk as it is pooled with investments by other organisations and invested across a wide range of financial institutions. Money Market Funds are AAA rated.

Fixed Term Deposits – Current

Counterparty	Fixed to	£	Interest Rate
Lloyds TSB Bank Plc	32 day notice	3,000,000	0.03%
Debt Management Office	19/10/2021	1,000,000	0.0001%
Debt Management Office	19/10/2021	800,000	0.0001%
Debt Management Office	19/10/2021	2,200,000	0.0001%
Debt Management Office	23/11/2021	3,000,000	0.0001%
Debt Management Office	23/11/2021	500,000	0.0001%
Debt Management Office	20/12/2021	2,500,000	0.0001%
Debt Management Office	04/01/2022	1,400,000	0.0001%
Debt Management Office	08/02/2022	3,800,000	0.0001%
Total Fixed Term Deposits		18,200,000	

5.3 The Council's Investments mid-way through the year are always higher than at the end of the year (at 31st March) due to the cash flow advantage that the Council benefits from part way through the year.

This is, in part, due to the timing differences between the Council collecting council tax income and paying this over to major precepting authorities such as Devon County Council, the Police and the Fire Authority. The Council's current counterparty limit is £3 million (£4 million for Lloyds plc).

Property Funds

Amount	Investment	Dividend Yield
£470,524	CCLA – Property Fund	4.04%

5.4 The Chief Financial Officer confirms that the approved limits within the Annual Investment Strategy were not breached during the first six months of 2021/22.

5.5 The Council’s budgeted investment return for 2021/22 is £105,321, and the current forecast is £24,370. This leaves a forecast shortfall of £80,951 against budget.

Investment Counterparty Criteria

5.6 The current investment counterparty criteria selection approved in the TMSS is meeting the requirement of the treasury management function.

Borrowing Position

5.7 The Council’s capital financing requirement (CFR) for 2021/22 is £24.738 million. The CFR denotes the Council’s underlying need to borrow for capital purposes. If the CFR is positive the Council may borrow from the PWLB or the market (external borrowing) or from internal balances on a temporary basis (internal borrowing). The balance of external and internal borrowing is generally driven by market conditions. A summary of the Council’s debt position at 30 September 2021 compared with 31 March 2021 is shown in the table below:

Lender	Maturity	Interest Rate %	Principal held at 31 March 2021 £’000	Principal held at 30 Sept 2021 £’000
PWLB - Maturity	45 Years	4.55	2,100	2,100
PWLB - Annuity	9 Years	1.92	1,817	1,673
PWLB – Annuity	22 Years	1.95	1,388	1,360
PWLB – Annuity	50 Years	2.65	12,374	12,308
PWLB - Annuity	50 Years	2.60	3,509	3,490
PWLB – 23 maturity loans	49 Years	2.54*	3,592	3,592
PWLB – Annuity	50 Years	2.31	1,761	1,751
PWLB – Annuity	30 Years	1.73	2,403	2,370
Total			28,944	28,644

*Average interest rate

5.8 Gilt yields and PWLB rates were on a falling trend between May and August. However, they rose sharply towards the end of September. The 50 year PWLB target certainty rate for new long-term borrowing started 2021/22 at 1.90%, rose to 2.00% in May, fell to 1.70% in August and returned to 2.00% at the end of September after the MPC meeting of 23rd September.

	1 Year	5 Year	10 Year	25 Year	50 Year
Low	0.78%	1.05%	1.39%	1.75%	1.49%
Date	08/04/2021	08/07/2021	05/08/2021	17/08/2021	10/08/2021
High	0.98%	1.42%	1.81%	2.27%	2.06%
Date	24/09/2021	28/09/2021	28/09/2021	13/05/2021	13/05/2021
Average	0.84%	1.16%	1.60%	2.02%	1.81%
Spread	0.20%	0.37%	0.42%	0.52%	0.57%

Local Authorities are required to submit a summary of their planned capital spending and PWLB borrowing for the following three years. This is updated on at least an annual basis. In March of each year, Council approves its Capital Strategy, Investment Strategy and Treasury Management Strategy. PWLB borrowing is permitted in the future for the four categories of regeneration, service delivery, housing and refinancing.

Debt Rescheduling

5.12 Debt rescheduling opportunities have been very limited in the current economic climate and following the various increases in the margins added to gilt yields which have impacted PWLB new borrowing rates since October 2010. No debt rescheduling has therefore been undertaken to date in the current financial year.

6. Outcomes/outputs

6.1 The Council's budget for investment interest of £105,321 for 2021/22 is not expected to be met. A forecast of £24,370 will leave a shortfall of £80,951 against budget.

6.2 Industry performance is judged and monitored by reference to a standard benchmark; this is the Sterling Overnight Interbank Average rate (SONIA). The average SONIA rate at the end of September was 0.05% which is 0.05% higher than the Council's average return of 0.00% as at 30 September 2021.

7. Options available and consideration of risk

7.1 The Treasury Management Strategy is risk averse with no investments allowed for a period of more than a year and very high credit rating is required, together with a limit of £3m per counterparty. This has resulted in only a small number of institutions in which the Council can invest (see Appendix A).

7.2 The Council's treasury management activities and interest rates are reviewed daily to ensure cash flow is adequately planned with surplus funds being invested in low risk counterparties, providing adequate liquidity initially before considering optimising investment return.

7.3 The 2018 CIPFA Codes and guidance notes have placed enhanced importance on risk management. Where an authority changes its risk appetite e.g. for moving surplus cash into or out of certain types of investment funds or other types of investment instruments, this change in risk appetite and policy will be brought to Members' attention in treasury management update reports.

8. Proposed Way Forward

8.1 The Council's treasury activities and interest rates will continue to be monitored daily and appropriate action taken to mitigate risk whilst optimising investment return where possible.

9. Compliance with Treasury Limits and Prudential Indicators

9.1 During the financial year the Council has operated within the treasury limits and Prudential Indicators set out in the Council's Treasury Policy Statement and annual Treasury Strategy Statement. The Council's Prudential Indicators for 2021/22 are detailed and shown in Appendix B.

10. Future changes being enacted within the 2022/23 Capital Strategy, Investment Strategy and Treasury Management Strategy.

- 10.1 CIPFA plan to publish new principles in December 2021 that Councils should adopt from 1 April 2022, in their Capital Strategy, Investment Strategy and Treasury Management Strategy for 2022-23.
- 10.2 The Prudential Code will be strengthened to clarify borrowing in advance of need and that local authorities must not borrow to fund solely yield-generating investments.
- 10.3 CIPFA will include proportionality as an objective in the Prudential Code. CIPFA is of the view that whilst local authorities should not be investing in assets primarily for yield, it is recognised, for example, that commercial activity is often a component of successful regeneration projects. CIPFA will propose that Local Authorities assess the proportionality of the risk of all projects, including regeneration, to quantify the risk to their resources.

11. Implications

Implications	Relevant to proposals Y/N	Details and proposed measures to address
Legal/Governance	Y	The Statutory Powers that apply to this report are the Local Government Act 1972 Section 151 and the Local Government Act 2003.
Financial implications to include reference to value for money	Y	<p>To date, the Council has under-performed against the industry benchmark by 0.05%. The Council has achieved a rate of return of 0.00%, against the Sterling Overnight Interbank Average rate (SONIA) of 0.05%. The Council's investment income target of £105,321 for 2021/22 is not expected to be met with a shortfall of £80,951.</p> <p>A cost pressure for 2022/23 of £80,000 has been built into the Budget Setting process, so that the 22/23 investment interest budget is reduced to £25,321.</p>

Risk		<p>The security risk is the risk of failure of a counterparty. The liquidity risk is that there are liquidity constraints that affect the interest rate performance. The yield risk is regarding the volatility of interest rates/inflation.</p> <p>The Council has adopted the CIPFA Code Of Practice for Treasury Management and produces an Annual Treasury Management Strategy and Investment Strategy in accordance with CIPFA guidelines.</p> <p>The Council engages a Treasury Management advisor and a prudent view is always taken regarding future interest rate movements. Investment interest income is reported quarterly to SLT and the Hub Committee through the quarterly budget monitoring reports.</p>
Supporting Corporate Strategy		The treasury management function supports all themes within 'The Plan for West Devon'.
Consultation and Engagement Strategy		External consultation and engagement has not been undertaken with regard to this report.
Climate Change – Carbon/Biodiversity Impact		No direct carbon/biodiversity impact arising from the recommendations.
<i>Comprehensive Impact Assessment Implications</i>		
Equality and Diversity		None directly arising from this report.
Safeguarding		None directly arising from this report.
Community Safety, Crime and Disorder		None directly arising from this report.
Health, Safety and Wellbeing		None directly arising from this report.
Other implications		None directly arising from this report.

APPENDIX B

PRUDENTIAL AND TREASURY INDICATORS 2021/22

The Council's capital expenditure plans are the key driver of treasury management activity. The outputs of the capital expenditure plans are reflected in prudential indicators, which are designed to assist members to overview and confirm capital expenditure plans.

Capital Expenditure

This prudential Indicator is a summary of the Council's capital expenditure.

	2020/21 Actual £000	2021/22 Budget £000	2021/22 Estimate £000
General Fund services	1,008	1,075	2,240
Community Housing	-	-	-
Capital investments*	-	-	-
TOTAL	1,008	1,075	2,240

*Capital investments relate to areas such as capital expenditure on investment properties.

The table below summarises the financing of the Council's capital programme.

	2020/21 Actual £000	2021/22 Budget £000	2021/22 Estimate £000
External sources	648	910	1,384
Own resources	360	165	856
Debt	-	-	-
TOTAL	1,008	1,075	2,240

NB. Please note that the budget for 2021/22 represents the approved capital programme for that year. However, the estimated capital spend includes not only expenditure on projects within that capital programme, but also expenditure on schemes carried forward from previous capital programmes.

The Council's Borrowing Need (the Capital Financing Requirement)

The Council's cumulative outstanding amount of debt finance is measured by the Capital Financing Requirement (CFR). This increases with new debt-financed capital expenditure and reduces with MRP and capital receipts used to replace debt.

	2020/21 Actual £000	2021/22 Budget £000	2021/22 Estimate £000
General Fund services	4,615	4,227	4,227
Community Housing	-	-	-
Capital investments	20,746	20,511	20,511
TOTAL CFR	25,361	24,738	24,738

The Council's Gross Debt and the Capital Financing Requirement

Statutory guidance states that debt should remain below the capital financing requirement, except in the short-term. As can be seen from the indicator below, the debt is slightly higher than the CFR by £3.60m in 2021/22. This is only a short term position as this will finance future capital expenditure (mainly housing projects) which will be incurred within the time frame of the forward approved Capital Financing Requirement estimates.

	2020/21 Actual £000	2021/22 Budget £000	2021/22 Estimate £000
Debt	28,944	28,342	28,342
Capital Financing Requirement	25,361	24,738	24,738

AFFORDABILITY PRUDENTIAL INDICATORS

The previous sections cover the overall capital and control of borrowing prudential indicators, but within this framework prudential indicators are required to assess the affordability of the capital investment plans.

These provide an indication of the impact of the capital investment plans on the Council's overall finances.

Ratio of financing costs to net revenue stream

Although capital expenditure is not charged directly to the revenue budget, interest payable on loans and MRP are charged to revenue, offset by any investment income receivable. The net annual charge is known as financing costs; this is compared to the net revenue stream i.e. the amount funded from Council Tax, business rates and general government grants.

	2020/21 Actual	2021/22 Budget	2021/22 Estimate
Financing costs (£m)	1,332,162	1,263,502	1,263,502
Proportion of net revenue stream	17.3%	17.3%	17.3%

TREASURY INDICATORS: LIMITS TO BORROWING ACTIVITY

The Operational Boundary – This is the limit beyond which external debt is not normally expected to exceed. This is the maximum level of external debt for cash flow purposes.

Operational Boundary	2020/21	2021/22
	£	£
Borrowing	47,500,000	47,500,000
Other long term liabilities	-	-
Total	47,500,000	47,500,000

The Authorised Limit for External Debt – A further key prudential indicator represents a control on the overall level of borrowing. This represents a limit beyond which external debt is prohibited, and this limit needs to be set or revised by Full Council. It reflects the level of external debt which, while not desired, could be afforded in the short term, but is not sustainable in the longer term.

This provides headroom over and above the operational boundary for unusual cash movements. This is the maximum amount of money that the Council could afford to borrow.

This is the statutory limit determined under section 3 (1) of the Local Government Act 2003. The Government retains an option to control either the total of all councils' plans, or those of a specific council, although no control has yet been exercised.

Authorised limit	2020/21	2021/22
	£	£
Borrowing	50,000,000	50,000,000
Other long term liabilities	-	-
Total	50,000,000	50,000,000

West Devon Borough Council's current level of borrowing as at 30 September 2021 was £28.64 million.

As part of the Medium Term Financial Strategy, Members approved an overall Borrowing Limit of £50 million.
